

Tubular Sight glass

With plastic flanges

**Type
620K**

Application:

Tubular sight glasses built from PVC, PP und PVDF Are used for visual checking and control of flows and filling in pipes. The sight glasses allow a reliable observation of function and performance in single devices and complete plants.

Tubular sight glasses offer a barrier-free cross section with no significant dead space.

Operating conditions:

flanges:	matching PN10 (PN 16 bis DN150)
pressure:	Up to 10 bar
temperature:	Max. 100°C

Higher pressures on request

Materials:

flange:	P265GH / 1.0425 1.4571
glass:	borosilicate
Seal:	Dual O-Ring
bolts	A4-70

Other materials on request

Installation guideline:

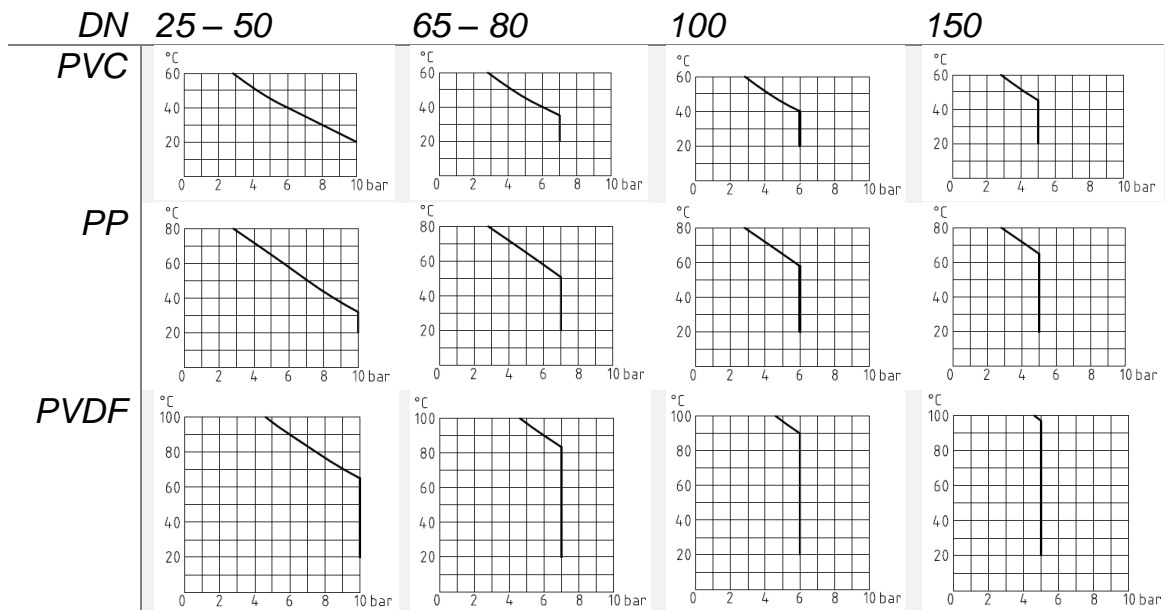

Tubular sight glasses must be installed in a way that prevents forces and moments from acting on the glass!

Nominal size			Length		DIN EN 1092-1		
d	DN	Inch	L	L1	LK	D	n x d2
32	25	1"	160	46	85	115	4 x ø14
40	32	1 1/4"	180	58	100	140	4 x ø18
